OLYMPIC GAMES: THE MOST WATCHED SPORTING EVENT IN THE WORLD!

The Rio Olympics (5th to 21st August 2016) and the Paralympics (7th to 16th September) will be the first edition of the Games to be held in South America.

They will bring together **65 disciplines, 16,000 athletes** from **206 countries, 4,500 officials, 70,000 volunteers** and... **25,000 journalists!**

Through its partnerships with IHF and FIVB, Gerflor will supply the handball and volleyball courts during the upcoming 2016 Olympic Games in Rio.

THE TARAFLEX® BRAND HAS BEEN A KEY BENCHMARK FOR INDOOR SPORTS FLOORING SINCE 1947!

Gerflor's TARAFLEX® sports floors have been used since 1947 at the largest international sports federations (volleyball, handball, badminton, table tennis).

Through partnerships with these federations, Gerflor has been present at the Summer Olympic Games since 1976, i.e. 40 years of Olympics!

A WEALTH OF KNOW-HOW AND EXPERTS IN ACTION:

This type of competition requires a specific organisation, involving Gerflor teams at various stages of the preparation:

- Before: manufacturing, assembly and quality monitoring. TARAFLEX® floors are manufactured and assembled in France, at the Gerflor Technocentre with a 1,500 m² area fully dedicated to the creation and assembly of courts.
- During: installation of floors and ongoing technical support.
- Repack after event.

IN 2014, GERFLOR HAS ACQUIRED CONNOR SPORT COURT INTERNATIONAL, expanding its global market reach and sports product range portfolio. Founded in 1872, Connor Sports® is the leader in hardwood sports flooring. The group is constantly innovating to propose new flooring solutions adapted to athletes of all levels.

IN ADDITION TO BASKETBALL COURTS, over 26,000 sqm of sports flooring subbase will be installed for other sporting venues (volleyball, handball, badminton...).

Events team of 5 technicians will rotate on the ground from June 20th - September 10th, 2016 in order to receive the courts, install in 5 venues, maintain them, and pack-up courts following events.
